Organic green tea China - Matcha Taishan - De-ÖKO-003

A Chinese Matcha, cultivated organically on the Taishan Tea Plantation located in the north-western part of the Province Zhejiang. Just like high quality Gyokuros, the selected tea shrubs are kept in the shade for some time before plucking in order to increase their chlorophyll content. Compared to the Japanese production, this fair-coloured, reed-green and finely powdered Matcha offers a rather robust character with lots of volume and the authentic acerbity of typical green teas. The bowl turns moss green in colour, with a strong and fresh bouquet as well as a slight tartness in the aftertaste.

Ingredients: matcha powder*. *from organic cultivation.
